Sue Peschin, President and CEO
Alliance for Aging Research
1700 K Street NW, Suite 740
Washington, DC 20006

Dear Ms. Peschin,

Thank you for your letter regarding the importance of access to vaccines for Medicare beneficiaries in their communities during the upcoming respiratory virus season. Humana has served Medicare beneficiaries for decades and currently provides coverage to approximately 6.2 million beneficiaries enrolled in our Medicare Advantage plans and 2.3 million beneficiaries enrolled in our Medicare Part D Prescription Drug Plans. We believe preventive care is critical to long-term health, and vaccination is one simple and effective way older adults can work toward achieving their best health.

Humana strives to reduce barriers to vaccine access as part of our larger mission to make it easier for the millions of people we serve to achieve their best health – delivering the care and service they need, when they need it. We are committed to ensuring our members have access to vaccines recommended by the Centers for Disease Control's Advisory Committee on Immunization Practices with \$0 out-of-pocket costs.

If you have further questions, I would be happy to set up a meeting to discuss Humana's commitment to vaccine access for our members in more detail.

Sincerely,

Michael Hoak
Vice President, Public Policy
